COMPANY PROFILE

Complete waste paper handling for corrugated plants

Since 1986 our founder has done one thing for Korea's corrugated packaging industry: handle its waste paper. We discharge scrap from the production line, convey it, shred it, bale it and keep the air clean while we do it. Every system is designed, manufactured and installed by our own team, and laid out around the customer's plant.

AT A GLANCE

Company	Taesung Machinery Inc. (brand: TSMAC)
Founded	Dec 2001 (incorporated Jan 2015) · founder in the field since 1986
CEO	Won-rok Choi
Business	Waste paper handling systems — discharge, conveying, shredding, baling, dust collection
Location	Hwaseong-si, Gyeonggi-do, Korea (about 1 hour from Incheon Airport)
Certifications	ISO 9001:2015 · ISO 14001:2015 · Inno-Biz (2023) · Patent — eco-friendly waste paper disposal system (2021) · Utility model — waste paper blowing unit
Team	About 15 — design, manufacturing, installation and service in-house

WHAT WE BUILD

Waste Paper Disposal System

TSM Baler (50 · 75) · Separator · Bag Filter · Blower · Briquetting Press

Scrap Conveying

Cutting Blower (7.5–37 kW) · Scrap and Belt Conveyors · Pipe Line

Shredders

Die Cutter Shredder · TSM Shredder 600 · 1200 · 1500 · 1800 · 2500

Dust Collection

Local-exhaust Bag Filter · Automatic Sectional Filter · Corrugator Web Cleaner

Discharge › Convey › Shred › Bale › Filter

HOW WE WORK

Engineered per plant

Layout, air volumes and motor sizes worked out from your drawings and scrap volumes — not sold off a shelf.

Built in-house in Korea

Every stage from one maker — pre-assembled and test-run at our factory before shipment.

Installed and supported

Commissioning by our engineers, English manuals and operator training, spare-parts kit, remote support.
